# ABOUT SARAH CALCIUM®

ESTABLISHED 2018 | BANGLADESH CHEMICAL INDUSTRY LEADER

Sarah Calcium Industries (SCI®) is a state-of-the-art chemical manufacturing company specializing in high-purity calcium hydroxide (hydrated lime) and specialized processing chemicals. Founded in 2018 with the core motto 'Best Quality Chemical Trusted Everywhere', SCI® has grown rapidly to become a key supply chain partner for Bangladesh's heavy manufacturing, leather tanning, water treatment, and aquaculture sectors.

With high-capacity manufacturing units in bhola and a primary headquarter factory inside the prestigious BSCIC Leather Industrial City in Savar, Dhaka, SCI ensures absolute quality consistency and logistics reliability for large-scale corporate buyers across the nation.

## CERTIFIED QUALITY STANDARDS

Every batch of our flagship Processed Calcium Hydroxide is certified by official test reports from accredited chemistry laboratories. These tests confirm unmatched purity, optimal alkalinity, and precise particle size mapping, making them highly effective for Effluent Treatment Plants (ETP), Water Treatment Plants (WTP), and heavy industrial tanning pelting processes.

**Official Quality Certified Grade (Hydrated Lime)**

## SCI AT A GLANCE

- 99%+ Chemical Purity Standards
- Premium Quality Certified Formulations
- Customized Packaging Options (Standard 25kg / 50kg Bags)
- Efficient BD Local Logistics & Challan System
- Full APEO/NPEO Free Environmentally Friendly Leather Auxiliaries

# CORE B2B CHEMICAL PRODUCT CATALOG

HIGH-PERFORMANCE ALKALINE AGENTS & TANNING AUXILIARIES

## SS Processed Calcium Hydroxide

INDUSTRIAL LIME GRADE

High-purity industrial-grade hydrated lime, custom formulated and optimized for large-scale ETP (Effluent Treatment Plant), WTP (Water Treatment), chemical processing, and leather pelt preparation.

## USHA Processed Calcium Hydroxide

AGRICULTURE & AQUA GRADE

Specialized lime formulation optimized for soil stabilization, agricultural pH balancing, and pond preparation in aquaculture fisheries, enhancing mineral nutrition and sanitizing habitats.

## SCI Protein Filler

LEATHER TANNING EXTRA

Advanced hide processing auxiliary designed to fill looser, fibrous structures of pelt hides. Improves leather thickness, tightness, uniformity, and leather cutting yield.

## SCI ADA 40

DEGREASING & WETTING AGENT

High-efficiency wetting, fat-removing, and emulsifying auxiliary. 100% free of hazardous APEO and NPEO compounds. Delivers rapid cleaning action in raw pelt processing.

## SCI AWLA (Anti-Wrinkle Lime Auxiliary)

PELTING PROCESSING DUAL

Prevents growth wrinkles and optimize liming pelt uniformities. Ensures flatpelts and consistent chrome absorption.

## SCI OPERATIONAL UNITS & FACTORIES

### FACTORY & UNIT 2 HEADQUARTERS:

Unit 2, 3 No. Tannery Gate, BSCIC Leather Industrial City, Hemayetpur, Savar, Dhaka, Bangladesh (Postal: 1347)

### PRODUCTION UNIT 1 (BHOLA):

Plot 5-19, BSCIC Industrial Area, Bhola, Bangladesh

### CORPORATE REGISTERED OFFICE:

58 Raj Narayan Dhar Road, Lalbagh, Dhaka, Bangladesh

## IMPORTANT NOTICE FOR INDUSTRIAL PROCUREMENTS

Direct factory supply deals are negotiated with credit terms limits up to 6500,000 and

All raw tanning auxiliary solutions are APEO/NPEO free and match strict international ecological benchmarks.
